The California Energy Commission is required under California Code of Regulations, Title 13, Chapter 8.1, Section 2343(c)(6), to consider the localized health impacts and environmental justice when approving projects for funding.

The *Localized Health Impacts Report for Selected Pilot-Scale and Commercial-Scale Advanced Biofuels Production Facilities Projects awarded funding through the Alternative and Renewable Fuel and Vehicle Technology Program under Solicitation PON-13-609* was posted May 9, 2014, and the 30-day public comment period ended June 9, 2014. Three addendums to this report were posted on August 11, 2014, December 31, 2014 and January 16, 2015.

On November 12, 2015, the Energy Commission posted a Revised Notice of Proposed Awards resulting in two additional projects proposed for funding under the *Pilot-Scale and Commercial-Scale Advanced Biofuels Production Facilities* grant solicitation PON-13-609.

The Energy Commission has published a fourth addendum to the original *Localized Health Impacts Report* that analyzes the new locations of these additional projects proposed for funding under the Program.
